

Happiness Is Pets

LIMITED PUPPY WARRANTY

14 DAY HEALTH WARRANTY INCLUDING FREE VETERINARY VISIT AND CONTINUING VETERINARY CARE AND EXPENSES.

_____ **Yes, I understand that** Happiness Is Pets warranties the health of this puppy for the first 14 days after purchase. **All veterinary care must be done at one of our approved clinics.** You will receive an initial free vet exam within 7 days of purchase and any necessary medications will be provided at no charge, except any normal and routine puppy shots. Happiness Is Pets will continue to provide any required veterinary care, except normal and routine puppy shots, for a total of 14 days after purchase. Happiness Is Pets will extend this care for any routine ailment that arises during this first 14 day period until such time as that ailment is corrected. This excludes any non routine treatment due to a congenital or heredity condition. This situation would be covered under our warranty against life threatening congenital or hereditary defects.

LIMITED 1 YEAR WARRANTY AGAINST LIFE THREATENING CONGENITAL DEFECTS

_____ **Yes, I understand that** if within 1 year of the date of birth of my puppy he/she is diagnosed by a veterinarian as having a life threatening congenital defect and this information is reported to Happiness Is Pets within that 1 year period I will receive a replacement puppy of equal value or one half (1/2) of the purchase price of the puppy. You must provide a veterinary letter with the diagnosis and must surrender the kennel club registration papers when applicable. This only applies to those conditions that will not self-correct during the first year. In some cases Happiness Is Pets will require a diagnosis of another veterinarian, which would be at the expense of Happiness Is Pets. Happiness Is Pets offers no warranty against seizures or demodeptic mange. In the event of an undescended testicle Happiness Is Pets sole responsibility will be to provide for neutering at one of our approved veterinarian clinics with the prior approval of Happiness Is Pets.

NONAPPROVED VETERINARY CARE AND EXPENSES

_____ **Yes, I understand that Happiness Is Pets will not pay for any veterinary care, for any reason whatsoever, other than at a Happiness Is Pets approved clinic. Should you, for what ever reason, decide to use the services of a veterinary clinic other than an approved Happiness Is Pets clinic you do so at your expense. The exception to this is for emergency care which is covered below.**

EMERGENCY VETERINARY CARE

_____ **Yes, I understand that** Happiness Is Pets will reimburse me for 25% of the base expense for an emergency vet visit, made within 7 days after purchase, with the following provisions. This is limited to one day only and only with the provision that one of our approved veterinary clinics was not open. Our experience has been that 95% of emergency veterinary visits are unwarranted. We would like to point out that if you do feel the need to visit an emergency clinic to have them do supportive care only and wait for any testing until you can get the pup to one of our approved clinics the next day. We do not reimburse for the treatment of kennel cough.
